INDUSTRIAL AUTOMATION

*Automated
Systems*

*Robot Material
Handling Cells*

*Testing and
Measurement*

***Turnkey Automation
Tailored to Your Needs***

DuroByte provides Industrial Solutions ranging from small automation panels to complete transfer line applications. Our experience and capabilities cover a wide variety of client requirements.

Durobyte Specializes in electrical hardware/software design for both new and mature systems. Vast experience with PLC, HMI, RFID, Cameras, Factory Information Systems, etc.

AUTOMATED SYSTEMS FOR ASSEMBLY

- Turnkey Controls Design
- Electrical Hardware Design
- MCAD/ECAD Collaboration
- Reverse Engineering
- PLC Software Design and Commissioning
- Support Services and Maintenance Agreements
- Machine Design Review
- Machine Buyoff and Validation
- SCADA
- Nut Runner, Fastener Assembly
- Plastic Part Assembly
- Clip Insertion
- Robot Assembly Cells
- Manual Assembly Stations
- Heat Stake and Sonic Welding
- Dial Table Assembly Cells
- Hydraulic and Servo Press Stations
- Plant Monitoring and Data Acquisition

SIEMENS

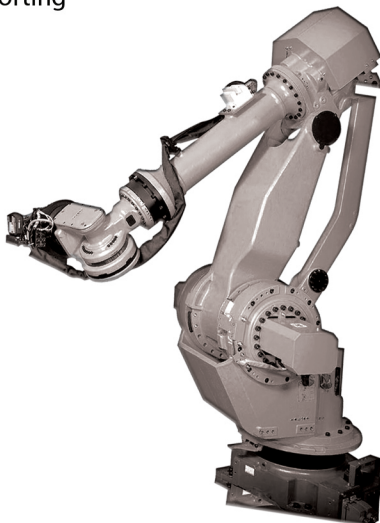

Allen-Bradley

Schneider
Electric

OMRON

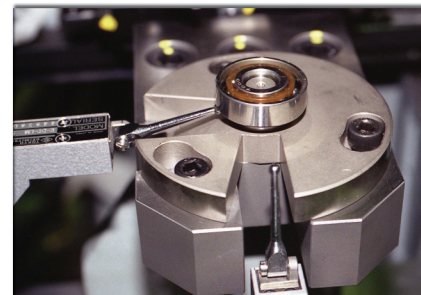

ROBOT MATERIAL HANDLING CELLS

- Pelletizing
- Part Transfer
- Testing and Sorting

TESTING AND MEASUREMENT

- Leak Test Stations
- Automated Part Gaging
- Torque and Force Measurement
- Part Feature Inspections
